

IPW1030 – 10km 300Mbps Network Extender

Features

- Outdoor Weatherproof
- **10km** Line of Sight
- **300Mbps, 2.4GHz**
- 128M DDR RAM
- 10/100/1000Mbps port x1
- 24VDC. (Adapter inc.)
- Recommend network link between Buildings, Factories etc.
- Active (Power Required) at both transmitter & receiver side
- Support 1 to 1 or Multi to 1

Connection Diagram

Specification

- IEEE802.11n, 11a, 802.3u
- Flash : 8MB
- IC : SiGe5004L x2
- DC24V/1A, POE Injector included
- Power Consumption <8.5W at both Transmitter & Receiver
- Operating Environment : -30°~65°C / 0~95% Humidity
- ABS/PC Material with UV Protection
- Dimension & Weight : 274 x 225 x 40(D)mm, 1.2kg (same for both Tx & Rx)

* Specification maybe changed without prior notice
